

Magical® Candle PP 22,111

Hydrangea paniculata 'Bokraflame'

Magical® Candle Hydrangea: Immense, porcelain-white flower heads appear back lit to create a surreal glow of soft, yellow flowers above tall, erect stems. A robust grower, the dense, lacy panicles of this variety are among the most beautiful in its class. A lovely choice for the summer garden, when so many flowering shrubs have taken a rest, Candle will give you plenty of enjoyment from July-Sept.
